## The Ultimate Outdoor Daybed

The Sweetwater Cabana is elegantly designed to enhance any outdoor setting — by the pool, in the garden, on a deck or patio. Each Sweetwater Cabana is individually hand-crafted from sustainable Indonesian hardwood and covered with lightweight Sunbrella® fabric.

## Relax and Drift Away

The simplistic, modern design of the patented Pod provides a personal space seating area for relaxing, mediating or just napping. The interior of the Pod is made of two wrapped layers of weatherproof

polymeric foam. Its firm appearance belies the soft cushiony comfort you experience when you sit down. The outer cover is made of weatherproof marine-grade vinyl with a slightly textured surface that gives it the appearance of real leather. It is stain, fungal and mildew resistant and cleans easily with soap and water. Materials used in construction are 95% recyclable.
